

SCA RESCUE AND HEALTH FOUNDATION RESCUE ASSISTANCE POLICY

The SCA Rescue and Health Foundation has created the following policy to assist the SCA Rescue Referral Service, local Schipperke clubs and approved individuals with expenses involved in Schipperke rescue.

This assistance program is for purebred Schipperkes only.

List of services the Foundation will routinely cover without prior approval:

- Vaccinate for DA2P-PV twice and Rabies once
- Neuter-spay or castrate, standard on healthy dog
- Heartworm test and maximum of 3 months' preventative
- Fecal and worm medicine if indicated and not treated by heartworm preventative
- Microchip
- Pound fees
- Collar and lead

Maximum amount allowed on one dog without prior approval - \$400

No reimbursement for travel, food, baths, nail trims, or boarding unless approved in advance

Heartworm treatment, dental work and brucellosis testing will be considered – must have prior approval

Adoption fees received will be donated to the Foundation's rescue fund.

A copy of the adoption contract is to be submitted to Foundation with the donation.

No dogs will be purchased

Rescuers should encourage owners turning in dogs to have them neutered, up to date on vaccinations and on heartworm preventative before they are relinquished.

Rescuers must provide our Treasurer with a statement from a veterinary clinic for either actual charges or an estimate of charges along with the dogs name and description on the statement. Payment by the Foundation will be issued to attending veterinarians. Original receipts required for reimbursement of all other approved expenses.
